C. CIA/NSA MOU, Serial No. 239, dated 25 Feb 82

1. On 7 July 1982, the Director of Central Intelligence approved the acquisition and operation of a new NFIB dissemination system to provide a fast, reliable, and secure means of communication among NFIB principals, especially in view of the increased pace and volume of NFIB papers. The need for this system is urgent, and has been recognized by all NFIB principals.
